Physically Possible	Yes	**Maximally Productive**	Yes

	Yes	No
Is the highest and best use of the subject property as improved (or as proposed per plans and specifications) the present use?	☑	☐

Highest and Best Use Commentary

Highest and Best Use is that reasonable and probable use that will support the highest present value, as defined, as of the effective date of the appraisal. Alternatively, it is that use, from among legally permissible, physically and reasonably possible uses, found to be economically and financially feasible and which results in the most profitable of the alternatives. Given the current zoning, location, site size, surrounding land uses (recognizing the principle of conformity) and development characteristics of the market area, my opinion of the highest and best use of the subject property is for continued single family residential use.

Reconciliation of Sales Comparison Approach

The concessions may or may not require an adjustment from the sale prices and are analyzed on a case by case basis based on paired sales analysis and market sensitivity reaction. A time adjustment is not supported by paired sales analysis or by market data. The sales and listings bracket the subject in living area, are located in the subject's neighborhood and are good indicators for the subject's estimated market value. Paired sales analysis indicates that the market is paying a higher price for view, but not for surplus land. No available sale or listing that can bracket the subject on the upper end in site size. The above grade living area adjustment was extracted by sensitivity analysis as a line item, the differential of the square foot as the contributory value, rather than a dollar per sq ft. The narrowing of the value range of the comparable sales when the adjustment was applied supports its contributory value extraction from the price, with additional support based on paired sales analysis. Sale 2 brackets the subject on the upper end in living area. Sale 3 brackets the subject on the lower end in living area. The adjusted sale price of the sales are in a relatively tight range. Slightly more weight on sale 1 and 2 as they are the most recent sales in the subject's development.

Reconciliation of Market Value

The sales comparison approach best reflect current market conditions. As the subject is new construction, the cost approach was developed and is considered to be indicative of current market trends for replacement. The income approach was not developed, due to a lack of data that precludes a credible result.

THE TREND IN THE NEIGHBORHOOD SECTION REFLECTS THE MARKET FOR THE COMPARABLE SALES TO THE SUBJECT AS ANALYZED IN THE 1004MC. THERE MAY OR MAY NOT BE OTHER TRENDS WITHIN THIS NEIGHBORHOOD WHICH DIFFER DUE TO SIZE AND CONFORMITY. FOR THE PURPOSE OF THIS ANALYSIS THE TRENDS REVEALED IN THE 1004MC ARE USED IN THE NEIGHBORHOOD SECTION OF THIS REPORT.

PREDOMINANT VALUE:
THE SUBJECT PROPERTY IS WITHIN THE PREDOMINANT VALUE RANGE FOR THE AREA, ALTHOUGH IT IS HIGHER THAN THE PREDOMINANT VALUE, THERE ARE A NUMBER OF SIMILAR SIZE HOMES IN THE AREA WITH SIMILAR FEATURES AND VALUES TO THE SUBJECT. THE SUBJECT IS NOT CONSIDERED AN OVER IMPROVEMENT, AS SEEN WITH THE SALES.

NOTE: THE COMPARABLE SALES USED ARE THE MOST PROXIMATE AVAILABLE. THERE WERE NO OTHER SALES AVAILABLE THAT WOULD HAVE RESULTED IN LOWER ADJUSTMENTS. THE MARKETING AREA WAS EXTENSIVELY RESEARCHED AND THE SALES USED ARE THE BEST AVAILABLE INDICATORS FOR THE SUBJECT'S ESTIMATED MARKET VALUE.

PHYSICAL DEPRECIATION IS BASED ON THE ESTIMATED EFFECTIVE AGE OF The SUBJECT PROPERTY. FUNCTIONAL AND OR/EXTERNAL DEPRECIATION, IS PRESENT IS SPECIFICALLY ADDRESSED IN THE APPRAISAL REPORT OR OTHER ADDENDA. IN ESTIMATING THE SITE VALUE, THE APPRAISER HAS RELIED ON RECENT LAND SALES, AND/OR PERSONAL KNOWLEDGE OF THE LOCAL MARKET. THIS KNOWLEDGE IS BASED ON PRIOR AND/OR CURRENT ANALYSIS OF SITE SALES AND/OR ABSTRACTION OF SITE VALES FROM SALES OF IMPROVED PROPERTIES.

THE AGE ADJUSTMENT IS DERIVED BY COMBINING SUCH FACTORS LIKE; ARCHITECTURAL DESIGN, ROOF PITCH AND HEIGHT.

THE TERM "ASSIGNMENT" IS DEFINED IN THE DEFINITIONS SECTION OF USPAP AS: 1) AN AGREEMENT BETWEEN AN APPRAISER AND A Client TO PROVIDE A VALUATION SERVICE: 2) THE VALUATION SERVICE THAT IS PROVIDED AS A CONSEQUENCE OF SUCH AN AGREEMENT.

THE TERM "INTENDED USE" IS DEFINED BY USPAP AS: THE USE OR USERS IF AN APPRAISER'S REPORTED APPRAISAL, APPRAISAL REVIEW, OR APPRAISAL CONSULTING ASSIGNMENT OPINIONS AND CONCLUSIONS, AS IDENTIFIED BY THE APPRAISER BASED ON COMMUNICATION WITH THE CLIENT AT THE TIME OF THE ASSIGNMENT, AND CANNOT BE MODIFIED AFTER AN ASSIGNMENT HAS BEEN COMPLETED.

THE TERM "INTENDED USER" IS DEFINED BY USPAP AS: THE CLIENT AND ANY OTHER PARTY AS IDENTIFIED, BY NAME OR TYPE, AS USERS OF THE APPRAISAL, APPRAISAL REVIEW, OR APPRAISAL CONSULTING REPORT BY THE APPRAISER ON THE BASIS OF COMMUNICATION WITH THE CLIENT AT THE TIME OF THE ASSIGNMENT, AND CANNOT BE MODIFIED AFTER AN ASSIGNMENT HAS BEEN COMPLETED.

NOTE: THE SUBJECT'S IMPROVEMENTS ARE FINANCIALLY FEASIBLE, PHYSICALLY POSSIBLE, LEGALLY PERMISSIBLE AND RETURN THE HIGHEST VALUE FOR THIS SITE. THE HIGHEST AND BEST USE IS AS A SINGLE FAMILY RESIDENCE.

NOTE: THE APPRAISER MADE AN INTERIOR AND EXTERIOR OBSERVATION OF ALL THE READILY ACCESSIBLE AREAS OF THE SUBJECT PROPERTY IMPROVEMENTS. THE APPRAISER DID NOT MAKE ENTRY INTO THE ATTIC AND DID NOT MOVE ANY PERSONAL PROPERTY OR FURNITURE. THE APPRAISER NOTED ALL READILY OBSERVABLE CONDITIONS OF THE SUBJECT PROPERTY, THAT IS, CONDITIONS THAT ARE IMMEDIATELY NOTICEABLE AND DISCERNIBLE DURING THE SITE VISIT. THE APPRAISER IS NOT RESPONSIBLE FOR DETERMINING THE FUNCTIONALITY OF THE APPLIANCES OR MECHANICAL SYSTEMS. THE APPRAISER IS NOT A HOME INSPECTOR, AND THE APPRAISAL REPORT IS NOT A HOME INSPECTION; THE APPRAISER ONLY PERFORMED A VISUAL OBSERVATION OF ACCESSIBLE AREAS AND THE APPRAISAL REPORT CANNOT BE RELIED UPON TO DISCLOSE CONDITIONS AND OR DEFECTS IN THE PROPERTY.

MLS SHEETS ARE PROPRIETARY IN NATURE AND CANNOT BE INCLUDED.

THE APPRAISER MEASURED THE SUBJECT PROPERTY IMPROVEMENTS USING ANSI STANDARD Z765-2021. BASED ON THE ANSI GUIDELINES THE TOTAL ABOVE GRADE LIVING AREA IS 2236 sf AND THE TOTAL BELOW GRADE IS 0 SF.

ADJUSTMENT FOR AGE IS BASED ON PAIRED SALES ANALYSIS AND MARKET SENSITIVITY REACTION. THE AGE ADJUSTMENT APPLIED IN THIS APPRAISAL WAS DERIVED FROM A COMBINATION OF PAIRED SALES ANALYSIS AND THE MARKETS SENSITIVITY TO DIFFERENCES IN AGE. BASED ON THE AVAILABLE MARKET DATA AND THE APPRAISER'S ANALYSIS, THE ADJUSTMENT RATE IS CONSIDERED SUPPORTABLE AND REFLECTIVE OF THE MARKET'S REACTION TO THE DIFFERENCES IN AGE.

THE LOT/SITE ADJUSTMENT APPLIED IN THIS APPRAISAL WAS DERIVED FROM A COMBINATION OF PAIRED SALES ANALYSIS AND THE MARKETS SENSITIVITY TO DIFFERENCES IN SITE SIZE. BASED ON THE AVAILABLE MARKET DATA AND THE APPRAISER'S ANALYSIS, THE ADJUSTMENT RATE IS CONSIDERED SUPPORTABLE AND REFLECTIVE OF THE MARKET'S REACTION TO THE DIFFERENCES IN SITE SIZE.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

UAD Version 9/2011 (Updated 1/2014)

Form UADDEFINE1A - "TOTAL" appraisal software by a la mode, inc. - 1-800-ALAMODE

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the definition of market value or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to Intended Use, Intended User, and the certifications are also not permitted. However, additional Intended Use, Intended User, and certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

Scope of Work

The scope of work for this assignment is based on the applicable assignment elements, including: the client and any other intended users, the intended use, the definition of market value that follows, the effective date, the subject property and its relevant characteristics, and the applicable assignment conditions. The appraiser must, at a minimum: (1) obtain and review adequate and reliable information for the subject property; (2) research, verify, and analyze adequate and reliable data for the subject market area including data for each comparable property reported; and (3) report his or her analyses, opinions, and conclusions in this appraisal report.

Intended Use

The intended use of the opinions and conclusions contained in this appraisal report is for the intended user to evaluate the property that is the subject of this appraisal for a mortgage finance transaction or related activities.

Intended User

The intended user of this report is the lender/client.

Definition of Market Value

The most probable price that a property should bring in a competitive and open market under all conditions requisite to a fair sale with the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for costs that are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable because the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third-party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar-for-dollar cost of the financing or concession, but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

Statement of Assumptions and Limiting Conditions

The appraiser assumes that the title is good and marketable unless he or she becomes aware of information to the contrary.

If the appraiser has included a sketch or floor plan in this appraisal report, it shows the approximate dimensions and is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

The appraiser has relied on data provided by third parties in this appraisal report. Such data may include, but is not limited to, floor plans, flood maps, multiple listing real estate services, tax assessment records, public land records, satellite imagery, virtual street views, property data services, surveys, engineering reports, and property data aggregations. After examination of the data and data sources, the appraiser has used only the data he or she considers reliable. The appraiser assumes there are no material omissions in the data relied upon and makes no guarantees, express or implied, regarding their accuracy. If the source date is prior to the effective date of the appraisal, the appraiser assumes the property characteristics and supporting information have not changed in the interim.

The appraiser will not be required to give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) that the appraiser became aware of during the development of this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and assumes that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

Certifications

Appraiser Certifications

The Appraiser certifies and agrees that:

1. I have no present or prospective interest in the property that is the subject of this report, or relationship with the present or prospective owners or occupants of the subject property, or other parties involved in this transaction.

2. I performed this assignment without bias with respect to the parties involved in this transaction, the property that is the subject of this report, or the demographics of the area where the property is located.

3. I am aware of and have complied with all applicable laws and regulations including antidiscrimination laws, rules, and requirements that apply to the appraiser and to the assignment.

4. I did not base any part of my appraisal on the actual or perceived race, color, religion, sex (including sexual orientation or gender identity), age (other than as applicable for legally age-restricted communities), marital status, disability, familial status, or national origin of the present or prospective owners or occupants of either the subject property or properties in the area of the subject property or on any other basis prohibited by the Fair Housing Act or the Equal Credit Opportunity Act, or any other basis prohibited by law.

5. I stated in this appraisal report my own personal, unbiased, and professional analyses, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

6. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

7. I meet the credential requirements for this assignment as of the date of this appraisal report and have knowledge and experience in appraising this type of property in this market area.

8. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records, and other such data sources for the area in which the property is located.

9. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

10. I personally performed an onsite inspection of the interior and exterior areas of the subject property. I reported the readily observable condition of the improvements in factual, specific terms. I identified and reported any known physical deficiencies that could affect the soundness or structural integrity of the property.

11. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was transmitted.

12. Using information available in the normal course of business, I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal.

13. Using information available in the normal course of business, I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale.

14. I based my valuation on the available properties that are most similar to the subject property.

15. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

16. I have identified the differences between the subject and comparable properties, analyzed the market reaction to those differences, and reflected those differences in the analysis.

17. To the extent possible, I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

18. I have taken into consideration the factors that have an impact on value with respect to the subject property, and its location, including its proximity to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that I became aware of during the development of this appraisal. I have considered these adverse conditions in my analysis of the property value and have reported on the effect of the conditions on the value and marketability of the subject property.

19. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

20. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analyses supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

21. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. No one provided significant real property appraisal assistance.

22. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

23. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

24. I am aware that any disclosure or distribution of this appraisal report or any of its contents by me or by the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

Certifications *(continued)*

25. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions. Any of the foregoing persons or entities who receive this appraisal report may choose to store, copy, reproduce, analyze, use and distribute the data in the appraisal report for internal or external purposes without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media). A person or entity who receives a copy of an appraisal report does not become an intended user, unless the appraiser identifies such person as an intended user. The appraiser and supervisory appraiser (if applicable) shall have no liability for any use of this appraisal report not related to the mortgage finance transaction and related activities for which this appraisal report was prepared.

26. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may choose to rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties. A person or entity who receives a copy of an appraisal report does not become an intended user, unless the appraiser identifies such person as an intended user. The appraiser and supervisory appraiser (if applicable) shall have no liability for any use of this appraisal report not related to the mortgage finance transaction and related activities for which this appraisal report was prepared.

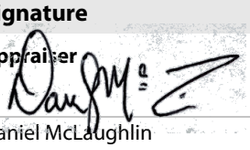

27. If this report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this report containing a copy or representation of my signature, I agree that my electronic signature has the same force and effect as my manual handwritten signature, and that the report is enforceable and valid as a paper version of this report would be if delivered containing my manual handwritten signature.

28. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

29. I have not performed any service regarding the subject property within the three years preceding the agreement to perform this assignment.
